

Romeet Chatterjee

Product Designer · Building B2B SaaS products from blank canvases to shipped designs

• chatterjeeromeet9@gmail.com • +91 7063093057 • Remote (India) • linkedin.com/in/romeet-in • romeet.framer.website

PROFESSIONAL SUMMARY

Product Designer with 2 years of experience shipping B2B SaaS products from blank canvases to production. Metrics-driven approach to design — reduced case management drop-off from 30% to 0% through user-centered research and iterative prototyping. Built a design system and component library from scratch at a real estate SaaS platform. Looking to bring deep Figma expertise, user research rigor, and end-to-end product thinking to a collaborative product design team.

CORE COMPETENCIES

- Product Design
- B2B SaaS
- Design Systems
- User Research
- Figma
- Interaction Design
- Usability Testing
- Information Architecture

WORK EXPERIENCE

UI/UX Designer — 12 Grids Oct 2025 - Present

Edge CRM — B2B SaaS CRM for sales teams (lead management, pipeline tracking, case resolution). Joined mid-redesign and set the direction for the entire product.

- Reduced case management **drop-off from 30% to 0%** and **44% to 0%** through user-centered redesign informed by **20+ user interviews** and iterative usability testing
- Cut average task completion time from **52s to near-instant** by rethinking information architecture and interaction patterns for core workflows
- Established case management redesign as the **benchmark for all remaining modules** — management shelved existing work in favor of the new direction
- Rethought calendar scheduling flows for sales reps, reducing cognitive load while maintaining pipeline context and cross-functional handoff clarity
- Collaborated with engineering and product teams to ship dev-ready, annotated design handoffs across multiple feature releases

UI/UX Designer — Maity Innovations Oct 2024 - May 2025

MDB — Real estate SaaS platform for West Bengal. Owned end-to-end design across information architecture, user flows, design system, and three dashboards.

- Built a **design system and component library from scratch** in Figma — designers who joined after the project contacted and thanked for the library's documentation and structure
- Designed end-to-end flows for property listing, buying, and builder hiring — structured long forms to keep complex workflows **fast and low-friction**
- Created customer, service provider, and admin dashboards including a **payment hold-and-release flow** for the platform's transaction system

UI/UX Design Intern — House of Artist Jun 2024 - Sep 2024

Design agency delivering high-velocity work across varied industries.

- Designed **15+ apps** at agency pace — high-fidelity mockups and interactive prototypes across finance, healthcare, and consumer domains
- Handoff quality called out by company owner — delivered **structured, annotated, dev-ready** design files that eliminated guesswork during implementation

PROJECTS

InspoFlow github.com/romeet9/InspoFlow

- Searchable visual library for designers — transforms the screenshot inspiration habit into an organized, searchable, and shareable collection with smart tagging.

Tasky AI task-planner-seven-zeta.vercel.app

- AI-powered task planner with intelligent task breakdown and scheduling — built end-to-end and shipped publicly.

EDUCATION

Dr. B.C. Roy Engineering College — BCA

2021 - 2024

SKILLS

Product Design · UI Design · UX Design · Interaction Design ·
Visual Design · Design Systems · Information Architecture ·
User Research · Usability Testing · Prototyping · Wireframing ·
User Flows

TOOLS

Figma · Framer · Adobe Suite · Notion · Cursor
